EFFORTS TO COMBINE FAIRS, SHOWS, RODEOS, BRING COMPOSITE GROUP

The Glade effort to combine for the mutual good, all public and organizational shows, rodeos, and fairs of the area resulted in the second meeting of representatives of a dozen groups from Lake Harbor, around to and including Cape Point Wednesday afternoon.

It was decided by the group or so who were present to incorporate the effort under one organization composed of all Glades organizations now active, or who will become active in presenting such functions.

A tentative name for the organization, Southeast Florida Cattle Shows, Rodeo Shows and Fairs Committee, was adopted, and three men appointed to complete the representation and submit a slate of officers to be voted on at a meeting in mid-January.

The important question for this organization at present is to combine for the community use of the Mayo Building and grounds.

Communism Topic At PTA Meeting

"Americans are deceived by communist slogans," says Father Petrie. Misguided Christian idealism, an unrealistic Utopianism, and a faulty economic system were blamed Thursday by Father John Clarence Petrie for the spread of Communism. The Parent Teachers Association at Belle Glade High School, Religious Education, was the topic of Father Petrie's address. He said that religious people are always in danger of letting their sympathy for the underdog override their thinking. They are distressed at unemployment, at too great a spread in income between the poor and the rich, at racial injustice. They feel such conditions conflict with the religion professed by Christians and Jews. Unless they are careful they will fall victim to any propagandist, who says he has the remedy for these social evils. Father Petrie (Continued on Page Two)

The basic purpose of the Agricultural Conservation Program is to aid in achieving necessary conservation of our soil and water resources. Conservation of these resources is urgent and it pays.

They will be given an opportunity to request the Federal Government to share the costs if needed to aid them in carrying out eligible practices on farms during the 1954 program year. The 1954 program year begins Jan. 1, 1954, and ends December 31, 1954. The form on which the request for cost sharing must be made, may be obtained at the

MIAMI AIR SHOW 5 & 6th CELEBRATES EASTERN'S 25th FLA. ANNIVERSARY

A week of celebration will be climaxed in Miami Dec. 5 and 6 with a free "Span of Flight" air show which will dramatize the history of aviation from its birth until today. Historical airplanes as old as a 1910 Curtiss Pusher and 1917 World One Spad will be flown at the show.

They will be contrasted both in the air and on the ground with modern commercial aircraft such as Eastern's 86-passenger Super C Constellation and faster-than-sound jets such as F-86 and F-94 fighters.

Guests present at the meeting were Mr. and Mrs. Harold Kermen, Mrs. Leona Thompson, and Mrs. Arvory Cornelius from Gardens Lodge, West Palm Beach.

the Glades at which Barnes spoke of the aims, purposes and success of this movement in Polk, Collier, Hendry and other counties in the state.

Hal Hunter acted as temporary chairman and J. L. Morrell as temporary clerk. Officers were elected.

John Cooper, Baptist, South Bay was elected president, J. L. Morrell, Baptist, Polk, was elected vice-president. Mrs. G. J. Barstow, Methodist, South Bay was elected secretary. C. A. Bailey, Methodist, Belle Glade was elected treasurer.

George L. Royal, Methodist, Belle Glade was named chairman of finance to work with the treasurer on a plan of financing the movement to be presented at the next meeting.

Robert Ford, Presbyterian, Belle Glade, was named chairman of the constitution and by-laws committee, with Mrs. G. J. Barstow and J. L. Morrell as members as committee members.

Sunday afternoon at 3 o'clock on January 10 was set for the next meeting. The meeting will be in Belle Glade and unless otherwise announced will be at the Community Methodist Church.

The purpose of the organization is (1) To provide education for the adult citizen upon the use of alcoholic beverages. (2) To formulate, propose and work for the passage of municipal laws, county ordinances and state statutes, regulating the sale of alcoholic beverages. (3) To secure strict enforcement of the law, with particular reference to the sale of alcoholic beverages. (4) To crystallize sentiment and to secure action for the calling of a local option election, for the purpose of outlawing the sale of intoxicating liquor in the county.

Mr. Barnes spoke in his talk preceding the organization of the League of the evil of liquor, the deleterious effect on the human body and brain and the effect of liquor on juvenile delinquency and crime. He pointed out that last year one out of every 18 teenagers between the age of 16 and 17 had been in trouble with the police; that 53 percent of all autos stolen and 40 percent of all burglaries were by boys and girls under 18; that according to the Child Welfare League of Chicago 90 percent of all juvenile delinquency was to liquor.

He also outlined some of the problems and ways and means of combating them which have been found successful in other counties in Florida. Particular emphasis was laid on control and curbing of liquor sales, gambling and other social evils as a means of reducing juvenile delinquency, crime, highway accidents and raising the standard of living and making the Glades a better place to live.

Those joining the League on Sunday were J. L. Morrell, Hal Hunter, Gene Butler, W. Tillis, all of Pahokee; J. S. Smith, Bean City; W. R. Hooker, Chosen; George L. Royal, C. A. Bailey, J. R. Roadman, all of South Bay.

FARMERS ARE RECEIVING 45 CENTS OF EACH DOLLAR SPENT FOR FOOD

United States farmers are now now receiving about 45 cents of each dollar the consumers spend for food. U. S. Department of Agriculture economists figure that producers will receive about the same proportion of retail prices next year. Although returns from individual foods will vary widely, the economists now think that retail prices, prices received by farmers for food products, and charges for marketing foods will average about the same in 1954 as in 1953.

Almost all costs of performing marketing services have increased during the past several years. At the same time local, state and federal taxes have risen. Both have served to widen the spread between what the farmer gets and what the consumer pays.

Marketing costs that make up most of the margin are rather rigid, or inflexible. As was well illustrated by the drop in beef cattle prices during 1953, an increase in the supply of a product that causes a decline in prices received by producers is not quickly or wholly reflected in lower prices to the consumer. Wage rates paid laborers who handle the product on its way to market do not go down along with the price of the product.

Agricultural research workers and others, have been endeavoring to bring about reduced costs in marketing services through increased efficiency and improved facilities in wholesaling, processing and retailing. They expect more success in the years ahead.

However, cuts in costs that are likely to be more than offset by an expansion of marketing services. More and more processing, packaging and other marketing services are employed as time goes on and the economists say the trend will probably continue.

To spread even warmth throughout the home and prevent "packing" near the ceiling, place a small portable electric fan on the floor, tilted up toward the ceiling and facing away from the hot heater.

In Florida, the "hardest" banana plant is the Orinoco, often called "horse banana."
